
Samuel Stanley

Full Stack Software Engineer

Professional Summary

Results-driven Full Stack Engineer with expertise in building scalable, high-performance web applications and backend systems. Proven track record of end-to-end ownership, from UI/UX design to backend microservices, database architecture, and CI/CD pipelines. Passionate about writing clean, maintainable code and solving complex business problems through technology.

Core Competencies

- **Full Stack Architecture:** Designing resilient, scalable, and persistent architectures (Next.js, Node.js, NestJS).
- **API & Backend Engineering:** Designing REST & GraphQL APIs, authentication systems, webhooks, and background jobs.
- **Database Management:** PostgreSQL, MongoDB, Redis, Prisma, Neon.
- **UI/UX Excellence:** Building pixel-perfect, responsive, and animated interfaces.
- **DevOps & CI/CD:** Docker, GitHub Actions, AWS, Vercel — ensuring automated and safe production deployments.
- **Custom Integrations:** Payment gateways (Paystack, Flutterwave), external APIs, CRM, and analytics.

Technical Skills

- **Languages:** TypeScript, JavaScript, Python
- **Frontend:** React, Next.js, Tailwind CSS, HTML/CSS
- **Backend:** Node.js, NestJS, Python, Django, FastAPI, GraphQL
- **Databases:** PostgreSQL, MongoDB, Redis, Prisma ORM
- **Cloud & DevOps:** AWS, Docker, Vercel, GitHub Actions
- **Tools & Third Party:** Paystack, Flutterwave, Resend, Sendgrid, VS Code, Git

Selected Projects

OPNMRT | *SaaS · E-Commerce*

- Built a multi-vendor marketplace platform featuring an AI-powered merchant toolset.

- Integrated LGA logistics and a zero-commission economic model.
- Developed a full administrative dashboard for platform oversight.
- **Tech Stack:** Next.js, NestJS, Node.js, PostgreSQL, Prisma, Flutterwave.

Study Express UK | *EdTech Platform*

- Developed a comprehensive executive education platform to facilitate UK certifications.
- Implemented event bookings and personalized learning pathways for global professionals.
- **Tech Stack:** Next.js, Vercel, Auth.js, PostgreSQL.

EMPI Costumes | *E-Commerce*

- Built a premium costume rental and sales platform.
- Designed and implemented a custom booking engine and integrated secure Paystack payments.
- **Tech Stack:** Next.js, React, Paystack, Tailwind CSS.

Admin Support HQ | *Internal Enterprise Tool*

- Created a feature-rich administrative panel with strict role-based access control.
- Built complex flows including order verification and manual payment receipt scanning for multi-seller management.
- **Tech Stack:** React, TypeScript, REST API, Tailwind CSS.

Payment Gateway SDK | *Open Source*

- Abstracted Flutterwave and Paystack APIs into a unified Node.js SDK.
- Implemented encrypted key management, automated retry logic, and secure webhook verification.
- **Tech Stack:** Node.js, TypeScript, Crypto, Jest.

Real-time Chat App | *Full Stack App*

- Built an end-to-end encrypted group chat application with WebSocket integration.
- Engineered message persistence, read receipts, file uploads, and push notification systems.
- **Tech Stack:** Socket.io, React, Node.js, MongoDB.

Development Philosophy

- **Ship Fast, Iterate:** Prioritize functional MVPs and iterate based on real user feedback.
- **Architecture First:** Emphasize robust database schemas and system designs for flawless scaling.
- **Business Mindset:** Leverage code as a strategic tool to drive revenue, user retention, and growth.
- **Write Clean Code:** Dedicated to producing highly readable pull requests and maintainable repositories for future engineers.
